 Kannur, Kerala

Summary

Motivated and innovative professional with strong focus on Python programming and web development. Exhibits excellent critical thinking and leadership qualities, experienced in building and supervising web applications. Capable of developing a solution and completing any project aimed at achieving positive results.

Professional Experience

Online Tutor

Jun 2024 – present | Kannur, India

Freelance, Remote

Student Engagement and Instruction

- Developed and delivered customized lesson plans to raise the performance of students.
- Explained the difficult topics in easy terms and also used a variety of learning methods.

Remote Teaching and Technology

- Interact with students using virtual media platforms like Google Meet
- Made use of virtual resources like screen sharing, collaborative documents and other online tools which are great for the students to engage in meaningful learning.

Organization and Problem-Solving

- Tried to manage my schedule in such a way that I ensured each and every one of them would get feedback from me as quickly as possible.
- Gave them tasks that required them to use their analysis and logic skills which was a nice way of exercising those skills of theirs.

Projects

Movie Ticket Booking Application

Nov 2023 – Feb 2024

Web application for admins and Android application for users

- An application that stands apart from current offerings, addressing the common issue users face when navigating multiple booking platforms, which often restricts their options based on the availability of specific theatres.
- This innovative system completely removes that inconvenience, enabling users to explore, choose, and secure seats in local theatres without being confined to a particular booking platform.
